

Structures on College Green

All structures on College Green require a permit from Perelman Quadrangle which must be displayed throughout the duration of an event. In order to gain such a permit, the organization sponsoring the event of which the structure is a part must:

- Make a reservation through Perelman Quadrangle at least 2 weeks prior to the event date.
- Provide detailed information regarding the method by which the structure will be built and/or assembled. Structures made by the sponsoring organization will require approval by the University Architect.

Structures may be in place on College Green for a maximum of three (3) days and two (2) nights.

Structures which remain on College Green overnight will require Security. The sponsoring organization is responsible for any incurred expenses.
